

Town of Bayfield

1199 Bayfield Parkway

P.O. Box 80

Bayfield, CO 81122

970-884-9544

REQUEST FOR PROPOSALS

The Town of Bayfield is soliciting for Proposals for location(s) for land application of biosolids generated from the Town of Bayfield Wastewater Treatment Plant (WWTP).

The Town of Bayfield is located in La Plata County. The Town includes approximately 2,300 residents. The Town has identified the need for a site(s) for land applying biosolids generated from the Town WWTP. The site would need to be capable of handling approximately 10-12 yards of biosolid material a week.

One (1) copy of the Proposal will be required. Submittals received on or before 4:00 PM on Thursday, February 2, 2012 at Bayfield Town Hall (1199 Bayfield Parkway) will be evaluated.

SCOPE OF SERVICES

The property needs to be capable of handling biosolids on a monthly basis including winter months. The Town of Bayfield will permit the site for land application.

Proposal shall include:

- How the property owner or property owner representative proposes to relocate the biosolids from the Town WWTP to the site.
- How the property owner or representative plans to handle biosolids during inclement weather, when the land is not available for land application (i.e. storage of biosolids).
- How the property owner or representative intends to spread the biosolids
- How much the property owner is willing to pay for the biosolids material.

BASIS OF EVALUATION

Proposals will be evaluated on the following criteria:

1. Location
2. Price
3. Ability to store and spread biosolids
