Stormwater Ordinance

It is the intent of a Stormwater Ordinance to promote the public health, safety and welfare by minimizing flood losses and the inconvenience and damage resulting from uncontrolled and unplanned stormwater runoff; to implement a stormwater utility to coordinate, design, construct, manage, operate and maintain the stormwater management system; to establish a reasonable and equitable program to implement and finance stormwater management and to encourage and facilitate urban water resources management techniques, including, without limitation, detention of stormwater, reduction of the need to construct storm sewers, reduction of pollution and enhancement of the environment.

The Board may find it necessary to authorize the imposition of Pollution Control and Flood Reduction fees upon customers and properties in the Town to promote the protection of the public from damage from stormwater runoff.

Town Website

Town of Bayfield phased out the website at townofbayfield.colorado.gov in November 2022 and moved to the new site address bayfieldgov.org. Town staff are constantly working to update information on the new site and provide new and useful tools for residents, businesses, and visitors, including bill payment, meeting agendas, job announcements, building permit information, newsletters, etc.

Website visitors are encouraged to check browser bookmarks when looking for Bayfield's new website to make sure the web address is updated to bayfieldgov.org.

Town Land Use and Development Projects

Do you want to know more about future developments in the Town of Bayfield? Town staff is now utilizing our new website [bayfieldgov.org](https://www.bayfieldgov.org) to post current development projects that are under review: <https://www.bayfieldgov.org/current-projects>.

The Town purchased iWorQ software in 2022 for Building/ROW Permitting and Inspection tracking. In 2023 we purchased the Land Use and Code Enforcement modules. Through iWorQ, we now have a link on our website for applicants and the public to review the status of current building/ROW permits: <https://www.bayfieldgov.org/current-permits>.

Thank you to all the community members that attended one of the Highway 160/East Bayfield Parkway & East Oak Drive Public Open Houses. The feedback was very helpful as we move forward with this project. For updates on this project, please visit the website: <https://www.bayfieldgov.org/new-intersection>.
